PROFESSIONAL SUMMARY

Final-year Computer Science Engineering student with strong problem-solving skills and a solid foundation in Java, Data Structures & Algorithms, JavaScript, React, and modern web development. Hands-on experience building full-stack applications using React and Appwrite, integrating AI-powered features, and developing responsive user interfaces. Passionate about writing clean, efficient code and eager to contribute to software engineering teams while continuously learning new technologies.

TECHNICAL SKILLS

- **Languages:** Java , JavaScript (ES6+), C, Python, SQL
- **Front-End Frameworks & Web Tech:** React, HTML5, CSS3, Responsive Web Design
- **Backend & APIs:** Appwrite (BaaS), JDBC, REST APIs, Gemini API
- **Computer Science Fundamentals:** Data Structures & Algorithms, Operating Systems, Database Management Systems (DBMS), Cybersecurity
- **Developer Tools & Version Control:** Git, GitHub

ACADEMIC PROJECTS

GitHub AI Analyzer

- Built a full-stack web application that allows users to analyze GitHub profiles using the Gemini API for intelligent insights.
- Implemented Appwrite as a Backend-as-a-Service (BaaS) for secure user authentication and data persistence.
- Designed a dashboard feature enabling users to securely save their GitHub usernames and track/view a structured history of past profile analyses.
- Built a dynamic and responsive user interface using React to ensure seamless data rendering and user experience.

Currency Converter Web Application

- Developed a React-based currency converter supporting real-time conversion between global currencies. (e.g., USD to INR).
- Integrated a live currency exchange rate API to fetch, process, and present precise, up-to-date market valuations.
- Designed a responsive user interface for seamless use across desktop and mobile devices.

Hostel Management System

- Developed a robust student record and allocation system using Java and JDBC.
- Applied advanced Object-Oriented Programming (OOP) principles to ensure code modularity, scalability, and long-term maintainability.

Weather Checking Webpage

- Built a weather application using JavaScript and REST APIs to fetch and display real-time weather information.

Spotify Clone

- Recreated Spotify's user interface using HTML and CSS with a focus on responsive layouts and modern UI design.

EDUCATION

Dr. K.N. Modi Institute of Engineering and Technology | *Ongoing*

Bachelor of Technology (Computer Science Engineering)

- Current SGPA : 8.1

Shivbrat Singh Children Academy | 2023

Senior Secondary (Class XII) | CBSE Board

- Aggregated Score: 92%

St. Xavier's School | 2021

Higher Secondary (Class X) | CBSE Board

- Aggregated Score: 92%

CERTIFICATIONS & ACHIEVEMENTS

- **NPTEL Elite Certificate:** Data Structures and Algorithms using Java — A comprehensive 12-week certification course conducted by **IIT Kharagpur** (Score: 60%+).
- **Tech Olympiad Winner:** Secured 2nd position in the Tech Olympiad competition organized on the occasion of Engineer's Day at Dr. K.N. Modi Institute of Engineering and Technology .
- **NASSCOM Certification:** Completed professional training in emerging technologies, gaining core competencies in Artificial Intelligence (AI), Machine Learning (ML), Database Management Systems (DBMS), and Cloud Services.
- **Coding Excellence:** Solved 200+ comprehensive algorithmic problems on LeetCode covering core computer science topics to build deep problem-solving proficiency.

LEADERSHIP & EXTRACURRICULARS

- **UI Designer:** Served as a user interface designer for various college events, creating visually compelling posters, banners, and promotional assets to drive student engagement.
- **Technical Team Member:** Contributed to the college technical committee by assisting peers, participating in development discussions, and supporting campus tech initiatives.
- **Event Coordinator:** Actively co-organized college festivals, technical hackathons, and educational workshops, managing logistics and ensuring seamless execution.
- **Cognitive Discipline & Consistency:** Maintained a 250+ day streak on daily problem-solving games (Wend, Patches, Zip, Sudoku, Tango, and Queens), demonstrating long-term daily commitment, logical reasoning, and sharp analytical skills.
